

Submitter: Michael Libel

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

SB 210 would make it harder for poor, elderly, and disabled citizens to participate in our system. Their views and votes are as equally important as those who have the time and means to get to a voting station. The mail-in voting system we have here in Oregon is a model system; the comprehensive voter pamphlets that accompany each ballot give each voter the opportunity to make the most informed decision possible for those outside of the system. Please reconsider support of this bill.
