

Submitter: Kathleen Felmey

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I've lived in Oregon almost all my life and remember my first election I got to vote in-person in 1988. It was a community event that brought people together. My mother was an election volunteer and was proud to serve our community, carefully handling each ballot. This is our sacred duty and responsibility to return to holding elections in-person and guard our chain of custody with our precious, valuable votes. It's the most secure way to ensure that our vote is legitimate and not tampered with, and it is the ONLY way to restore faith in our elections. I am completely in support of SB 210.
