

To Whom it may Concern,

Hi, my name is Dawn Daniels and I'm reaching out from 97330 to express my concern that by [eliminating Vote-By-Mail](#) it would make it difficult for many to vote thus creating a barrier to the voting process. In particular, not being able to "Vote-By-Mail" in our state's rural areas would force people to drive hours to a voting location. Many cannot take off from work in order to drive hours to a voting center or have other difficulties because of mobility issues. Repealing Vote-By-Mail would block many eligible Oregonians from exercising their legal right to vote. I am OPPOSED to SB210.
