

Submitter: Aaron Stave

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As a lifelong Oregonian, the ability to prepare and drop a ballot at a time which fits my schedule has allowed me the ability to cast my vote in every election. I place tremendous value on that, and oppose this measure in the strongest possible terms. Restricting voters' ability to cast their votes based off poorly-evidenced allegations of fraud can only be seen as self-serving and anti-democratic, and until Senator Smith and his peers can show a need for these restrictions it will continue to be so.
