

Submitter: Brian Bell

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Proposing arbitrary limits on how people can vote under the guise of "eliminating voter fraud" that remains farcical, conspiracy-baked nonsense is nothing more than clear voter suppression and a boldfaced attempt to grab power. This bill is a poor caricature of the tactics used by our current federal administration of fascists and should be treated no differently by a sound-minded legislative body that wants to preserve our democratic processes. Get this bootlicker bullshit out of here.
