

Submitter: Elaine Lavington

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I urge you to support the passage of this bill. I believe that voting in person will restore integrity to our electoral process and inspire greater participation in our democracy. While I understand that in-person voting may be inconvenient for some, it is important to recognize that life often presents challenges, and our civic duty requires that we overcome them to ensure our voices are heard.

The current voting system is costly, inefficient, and prone to errors or potential fraud. It is time to reform the system. We must prioritize cleaning our voter rolls, eliminating mail-in ballots, and requiring valid identification to vote. After all, we are required to present ID for many other aspects of life, so it is only logical that we do so for one of the most important acts in shaping our future. Please consider the long-term benefits of these changes and pass this measure to help restore confidence in our voting process. Thank you for your consideration.
