

Submitter: Sharon Roberts

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This bill is a sham, or at least is based on misinformation about the security and legitimacy of mail in ballots. There is ample evidence that mail-in voting in Oregon leads to remarkably high voter engagement and turnout, facilitates voting by rural citizens, older individuals and those with disabilities. This bill is simply an attempt at voter suppression and should be acknowledged as such. We have a strong, democratic election system that should be emulated by the other 49 states.
