Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I oppose this proposed legislation to require in-person voting on the date of an election the standard method for conducting an election. This is a solution to a non-existent problem. The State of Oregon has an excellent track record of making voting simple and accessible for all registered voters. I have been very happy with the voting process, from receiving my ballot and voters guide to putting it in the mail or dropping it off at an official ballot box. Why would we want to spend more money returning to voting in person? It doesn't make any sense. I haven't heard anyone wanting to return to the "old days."
