

Submitter: Stephen Rhodes

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I support this Measure. When mail in voting was approved in the 1990s, Oregon was a different place. Now with potential voter fraud and with recent lapses by DMV, there is no clear answer as to who is submitting ballots anymore. Voting needs to return to in-person with identification proving citizenship and residency. Also, use some common sense and stop allowing voter registration at DMV. If someone wants to register, they can register directly with the county they reside in.
