

Submitter: Angel Chavarin

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As someone living 55 miles outside of town, voting by mail has been amazing my entire life. To have it struck down would be imbecilic. Voter turnout would plummet and we wouldn't get nearly as fair idea of what people really want in the state at all. Along with making bad faith actors propositions easier to sneak through.

Definitely oppose to in person voting being the standard method for conducting an election.
