

Submitter: Scott Peartree

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Oregon has one of the most successful track records of implementing voting by mail, with little to no evidence of wrongdoing or fraud. Having come from a state that required voting in person, I've seen the negative impact on what we all should want, which is more eligible voters participating in the democratic process (right?, right?). I wholeheartedly oppose any further attack on the voting process such as this.
