

Submitter: Lucas OHalloran
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

SB-210 would ensure election integrity. Only good would come of requiring photo ID, in person on Election Day. (Those that say minorities would be disproportionately affected are racist / bigots. Minorities are just as smart as the average white citizen and know how to get ID.) You have to show some sort of photo ID to buy alcohol, tobacco, and firearms. You need photo ID to buy a vehicle. You need photo ID to rent or buy a home. Everyone already has it just to function in everyday life. It only makes sense that this would be the case for voting as well. Too many things can go wrong with mail in ballots. People move, people die, illegal immigrants end up with ballots, people end up with multiple ballots- yes each of these situations have been documented in Oregon. SB-210 would eliminate all of this and promote fairness, transparency, and integrity. Thank you for considering my comments.
