

Submitter:

Jonathan Stocker

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

You require an ID for alcohol, tobacco, marijuana, driving, banking, travel, and yet one of the most important activities we as tax paying citizens have in our entire lives, no ID is required? There is no way to verify how many votes get sent in by mail, not who is actually sending them in. Literally can ballot stuff with a mountain of ballots and they get counted. This is the just illegitimate state in the entire US. If in person voting with ID was mandatory, none of you would have a job because the real voice of the people would have gotten rid of you so fast. END VOTE BY MAIL. END the fraud. Bring common sense back and legitimacy to our elections. Give the people a true voice and stop the corruption.
