I have been voting by mail for several years and on time every election. As someone who works night shifts, being able to research every candidate and ballot measure as I vote is a great convenience. I do not like being pressured to vote in a rush as voting in person would entail or in the case of another pandemic as the current federal government doesn't appear to be ready to handle once again.

If this is of such great important to the state, then submit it to the voters of the state as the state voters approved the mail by voting initiative originally and it has been working ever since then.
