

Submitter: Matthew Clayville

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB2583

I am a student of the Baker Web Academy Charter school, and it has been a very positive experience. My family lives in a remote area without easy access to a public school, and this school supports us in every way possible. If HB 2583 allows the school to continue operating and keep helping students like me, then I am in full support of it.
