

Submitter: Carol Halvorson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I support Mail in Ballots. They make it possible for people with disabilities to vote and give each voter time to study the measures and candidates carefully in the privacy of one's home.

I do not want to go back the way it was in the past when in cold and rainy weather, I had to go to the polls.

Mail In ballots promote voting! I oppose any change .
Carol H
