

Submitter: Susan Remmers

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Creating barriers to vote for those with physical limitations and/or other structural limits (such as no paid time off work, lack of access to affordable transportation to and from an election site, or access in rural and remote areas) effectively suppresses voter participation in elections. Therefore I oppose SB210 and ask that you vote no on SB210.
