Measure, Appointment or Topic: HB2583

My son is a virtual charter student. He would not thrive in a different option. Virtual charter students deserve fair access to the same resources as every other public school student. The Student Success Act was meant to support students who need it most, yet virtual public charter students are excluded. HB 2583 is about fairness — ensuring all public school students have equal access to SIA funds, no matter where they learn. Without access to his virtual charter school, I am not sure how we will be able to secure him an education.
