

Submitter: Molly Nix

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Please do not allow this blatant attempt to undermine accessibility and inclusivity of the Oregon electorate. As a 60 year old Oregonian, I have recently begun to understand how difficult it is for those with physical limitations to stand in line for several minutes, and especially several hours. Physical conditions are not limited to our older populations. There are many younger citizens unable to stand in line. Parents with young children will find voting in person voting a hardship as well. VBM has been proven to be a safe and secure system. Keep VBM as accessibility for ALL Oregonians!
