

Robert Calvo– DSCS
James St. Home – Nerberg, OR
SACU – Stabilization and Crisis Unit

What brings me to work for SACU? I believe with my training and driven passion to help provide services for these individuals who need me and like to be accountable. I have so much experience in this field that it can be challenging and rewarding helping a person reach their personal goals in life being person centered.

We all are different in so many ways, but have our own intelligence in our own way. Each team player brings a strength to the table. As a team, we are able to do our jobs. Nothing is impossible if you put your mind to it, but I don't think we have given this enough discussion or planning to make it a success. If we have the drive to make things better as an employee for SACU, listen to us and take in our input. SACU is important to make things safe, healthy, and to be able to have individuals also enjoy the community they live in. SACU is very essential because we all are here to keep the community safe and help individuals access it while role modeling.

I get to go anywhere in Oregon and feel safe because of the job SACU does to keep Oregon and communities safe. To whom this may concern – **Oregon and the community need to keep us open at 100% capacity. We pray for this and for the sake of our community. Our individuals deserve to not be disrupted from their progress and to keep them going in life. I oppose the proposals in SB 5526 and urge to keep SACU at current service level.**

Thank you for your time to hear us voice out our concerns in the matter.
