

Submitter: lou Hakanson
On Behalf Of:
Committee: Senate Committee On Health Care
Measure, Appointment or Topic: SB535

As an Oregon resident who cares deeply about those struggling to build their family in our state, I strongly urge you to pass SB 535, which will help Oregonians build their families when faced with infertility, cancer or other conditions that can cause infertility. Oregon families need your support now. My daughter and her husband desperately want children but have been unable to conceive. Family members pitched in what they could to help them cover the first two IVF treatments. They are deciding if they want to give it another try, but are running out of savings. Please support SB 535 and help our young people build their families! I need your support, along with the 1 in 6 in our state living with the disease of infertility and the thousands of Oregonians diagnosed with cancer during their reproductive years. It is time for Oregonians to receive comprehensive insurance coverage for the medical care needed to build their families. As proven in other states, insurance covering vitro fertilization (IVF) decreases the chance of multiple births, and lowering multiple births decreases overall health care costs and results in healthier babies and healthier parents. Please support Oregon families by moving SB 535, the Oregon Family-Building Act, forward. Thank you! Sincerely, lou Hakanson
