Measure, Appointment or Topic: SB698

I oppose SB698 , it is ridiculous to think as a person is traveling they will be able to get rid of there weapon as they go in and out of these zones. Additionally just because you would like everyone disarmed does not make it legal even if you pass a "law" it will not be legal . Article 6 Section 2 of the US Constitution states that it is the HIGHEST Law in our land . You can not make a law that is repugnant to our Constitution . Thank You Scott DeCarlo
