

Submitter: Deborah Carey  
On Behalf Of: Sb1187  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB1187

Make the polluters pay will establish a fund to add to Oregon's bottom line. For example the fund will provide money to pay firefighters, and others as they pursue our huge fires around the state caused by major polluters. I support this measure and have read that it will bring restitution for our farmers, fisherfolk and others who are damaged by their pollution and by markets blocked by recently implemented tariffs.
