Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB80

Chair Golden, Vice-Chair Nash, and Committee Members:

I am not against large scale farming per se but I feel strongly that we have to protect water quality, particularly in our state's Groundwater Management Areas. We know that confined animal feeding areas pollute groundwater. Why can't the proposed feedlot operation be placed elsewhere?

Please vote for SB 80 to protect our state's precious water resources!

Sincerely,

Cynthia Grant
