

Submitter: Everett Sprague

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB1154

Thank you for allowing my Testimony. Putting meters on ground wells is not supportive for Oregon farmers and rural life. There are many costs that are required for well upkeep and installation (fees, permit, drilling, well system, well maintenance, etc.). To add further costs for what the city, county or state has nothing to do with is not right as these costs were to allow us our well. Please understand that most if not all of us do not live where there is City water available.
