

Submitter: Susan Weedall

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3074

Passing this bill will reduce deaths, injuries and threats by gun in Oregon. Michigan recently passed ERPO regulations in 2024 with implementation in mind, and the results their first year have been very promising. Michigan's ERPO also allows healthcare providers to report, which I support.

<https://firearminjury.umich.edu/michigan-erpo-info/>. There are also protections built in for people who are subject to an ERPO: <https://www.endgunviolencemi.org/erpo>.

Please pass, and consider amendments to this bill. There are way too many suicides, intimate partner deaths and injuries by gun and shooting threats in our state that are preventable. Thanks for your consideration.
