

Submitter: Verle Steele  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3542

I am writing in support of HB3542

The increasing Oregon population creates an undeniable fact that there will be increasing strains on the highways and by-ways of our great state.

This will lead to increasing interactions of motorcycles with automobile, truck, and recreational vehicles.

The freeways, highways and roads of Oregon are witnessing extensive inter-actions between motorcycles and other highway vehicles.

Studies, and verifiable records from other states, demonstrate that, where applicable, lane-filtering for motorcycles is successful.

Appropriate lane-filtering laws do lead to fewer risks of injuries for motorcycle riders.

Please help reduce the risks of serious injuries, and/or death, with your support for HB3542,

Thank you,  
Verle Steele
