

Submitter: jeff maclean
On Behalf Of: railroad employees
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: SB723

the only reason the railroad is trying to go to a one man crew is for profit and profit only putting aside the safety of its employees.

The railroad will show parts of their track that are a person accessible by a vehicle but that is only about 5% of their track they never talk about the times when a conductor or engineer has saved the life of their coworker because of a two person crew the only thing this company seems to care about is the company stock.
