

Submitter: Lori Bennett

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3372

As a small space gardener, gardening educator plus seed breeder and saver in an urban area I support passages of this bill in order to continue my water access and that of very my many cohorts seeking to grow food for ourselves, neighbors, food pantries and for sale along with the importance of maintaining and preserving heirloom seed varieties along with growing out localizing landrace varieties towards climate change adaptation. For all these reasons I and many want availability to drilling small wells as needed in private and allowable public access spaces.

Thank you,

Lori Bennett
