Dear committee members,

I, like many millennial homeowners and taxpayers in Oregon, chose to settle here because Oregonians demonstrate commitment to community health and the great outdoors. Strong implementation of Oregon's cornerstone Climate Protection Program, Clean Fuels Program, Clean Truck Rules, and other DEQ programs are essential to ensuring a healthy climate future for all Oregonians.

I urge you to ensure that DEQ is well-resourced to implement these essential programs to help us meet our climate goals and protect our families from the cancers, asthma, and other life-threatening conditions caused by pollution.

Please support DEQ funding. It's an investment in a livable present and future.

Sincerely,
Michaela
