

Submitter: Tiffany Yelton-Bram

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB686

It is absolutely essential to have access to journalism that is professional, detailed and fair. Technology platforms are sharing journalism without actually supporting the people and companies that do the work of journalism and they use this material for machine learning to boot. This bill is a innovative way to get the technology platforms to be part of the financial infrastructure of the news media. I strongly support it and urge members of our Legislature to support it as well. Thank you.
