Until I hear more regarding this bill I am in opposition. On it's surface, this bill has been introduced to primarily fund specific special interest groups such as Moms Demand Action. This is just one more bill designed in actuality to fund restricting our fundamental rights as law abiding citizens. I and many others are 100 percent in support of a healthier safer state. You are simply approaching it in the wrong manner. Rather than divide our state through fundamental right restrictive bill's. Let's work together to find solutions to the true issues.
