I oppose this control on ground water use and access!

To tax property holders that have Grandfathered water rights to springs, wells, catchment systems is a threat to the rural life. It threatens Farms, ranching, off grid living!

I will not allow the State on my property to assess what is already In place, is working well, and has been reliable for decades if not centuries.

I say

Hands off our wells!

Hands off our Springs!

Hands off all Grandfathered in water rights!

Hands off future well rights!

Hands off our property rights!
