Wildfire

Measure, Appointment or
Topic: SB1154

I opposed this the last time that it was presented. I still oppose. If you decide to charge us for our wells and use of our well water, then we should get equal treatment to those that pay for water and septic in city limits. Meaning you will do all the repairs and maintain our septic systems just as city residents don't have to incur those costs. The last time this bill came to fruition I literally had a septic overflow and cost me \$450 to repair. My mom in LaPine had to dig their well deeper for a total of \$6000.00. So if you charge us for well water, then you as the recipient of my money should pay for all maintenance.

I strongly oppose this because I know there is no way the government will pay for repairs and maintenance of the items they plan on taxing us MORE money for.
