Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3372

Locally grown food is the most carbon neutral and economical food available to consumers today. It is also the freshest and therefore the most nutritious to eat and enjoy. Our local Farmer's markets and local Oregon chains depend heavily on the produce from small farms and gardens.

I urge you to put your full support behind this Measure. For a future of continued safe, economical, Local food production.

Thank You,
