I oppose any regulations on my private well. It's my well I maintain it I paid for it and I own it out right. Water comes from God not man and this water is as old as the Earth. Any impurities in the water come from man, and we can test that and fix it. We have the technology we don't need to pay a bureaucrat to tell us what and when we can use our own water. Just another power grab and a form of tax vote no.
