Vote AGAINST just about anything they come up with in Oregon because it is a Socialist/Welfare state. Those of us who work hard shouldn't have to pay for those that don't. They don't tolerate government overreach in many other states (besides Cali obviously). Didn't they just claim to find the largest aquifer ever here? Don't they ALREADY monitor/test public water? So why would they need to mess with private wells that they didn't pay for? It's all about control/taxes/fees/permits. I will not tolerate government overreach of current law abiding citizens just so the state can make a buck. I also know that many folks will rig their systems so the results of the monitoring won't be accurate anyway.
