Committee: House Committee On Rules

Measure, Appointment or Topic: HJM6

While NIH provides grants for important research topics, at times they have also funded questionable research. More needs to be done to ensure that those who receive grants are following federal law such as OHSUs Primate Research Center & National Institute of Allergy and Infectious Diseases, research on “beagle experiments” in which the dogs were “bitten to death by flies.”

I would propose adding language that encourages federal oversight on grants the NIH provides.
