Committee: Joint Committee On Ways and Means
Measure, Appointment or Topic: HB5006

I would like to show support for the HB5006. I believe that it is imperative that the school in Ukiah get the funding to make needed updates to the building to make sure that it is a safe and clean place for students to get the best education that they can get. The building is over 100 years old and is in need of some major updates that are not capable with normal funding. The school is the hub of the community in the sense that it houses all sorts of activities, its where funerals and dances, it also was the base the the fires in eastern Oregon last year. I hope you see the value of the Ukiah school district. Thank you for your time.
