

Submitter: A M
On Behalf Of: Friends who live in St. Johns
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB2749

I have friends who live in St Johns. Everyone knows “the big one” could happen anytime, and many Oregonians have followed emergency preparation recommendations, from securing the foundations of their homes and bracing their chimneys, to packing bug-out bags etc. One such important preparation that needs to happen for those who live in St. Johns is to have an emergency route out, should such a catastrophic quake occur. I’m writing in support of HB 2749. Thank you!
