

Submitter: Christine Kallabge
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB2749

April 13, 2025

20000 AT RISK

RE: Devastation in St. Johns.

We would like the committee consider the devastation an earthquake would wreak on the residents of our community. An earthquake would bring a collapse of the bridges into our area and keep all emergency services from reaching over 20,000 people.

Our infrastructure is antiquated and needs a major updating, therefore we would ask the committee to help us solve this problem. We love our community and wish to keep it a thriving place for all to enjoy.

As a concerned citizen of ST. Johns I hope you take my letter into consideration.
