

Submitter: Rachel Zimmerer

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2749

An emergency route into and out of St Johns is absolutely necessary. It's not "if" the Big One hits but "when" and I don't want myself, my family, or any other residents of the north peninsula trapped and to be considered a sacrifice. There must be planning and funding for a bridge across Columbia Boulevard to be able to provide access for emergency vehicles, medical assistance, and food supply.
