Measure, Appointment or Topic: HB5006

greetings, when we use the term "environment", what that really means is " our LIFE SUPPORT"! please, please, think about that! we all want to LIVE, and to do so we need clean air, clean water, and clean mother earth! please use your ability to allocate resources and funds to protect OUR life support systems, so that you, your children & grandchildren can LIVE and enjoy life! when i die i don't want it to be early, because of toxic chemical pollution! please do all you can to safeguard our life support system the environment! thank you
