Committee: Joint Committee On Ways and Means  
Measure, Appointment or Topic: HB5006

I am writing to support HB3173 which ensures funds for Oregon Flora project. This is an important resource for monitoring and collecting data on plants so that informed decisions are made by a number of people, agencies and organizations. The natural resources that make Oregon special and unique need to have systems of support in order to protect them.

I am a resident of this amazingly diverse state and volunteer my time to keep Oregon's natural resources alive for future generations.  
Please support funding of the Oregon Flora project.
