Equitable Safety, Justice, Education, Health care, Business' growth & prosperity, Housing is all of our responsibility as are the entities mentioned.

It is vital to keep programs alive & productive that Pretains to: disabled, Veterans, health care for all Oregonians.

Social Justice & the Judiciary systems have faltered...they need to be prioritized & updated. Please keep/ get the funding stronger inorder to irradicate the broken, out of date, or non-existent practices & laws.

PLEASE think/ act with the diversity in mind..social, economical of those of Senate & Representative positions...listen to what is being said by those offshore who put you in positions to Govern Our State of Oregon
