

Submitter: Roberta Richardson

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure, Appointment or Topic: HB5006

Please OPPOSE SB215, SB216 and HB2410. Nuclear is most certainly NOT clean energy, even fusion. It presents a terrible danger to our Oregon communities and our wild lands as well. There is still no truly safe waste storage, and it leaves us extremely vulnerable to both natural disasters and the vagaries of human nature, IE both by individuals who are mentally unbalanced as well as rogue states (foreign governments with ill intent.
