

Submitter: Rebecca Read

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: SB551

I support Senate bill 551A. I am very concerned about the amount of plastics entering our environment. I'm a native Oregonian who has enjoyed the beauty and environmental health of my state for many years. I want to keep it that way. The provisions of this bill provide consumers an easy way to reduce plastics. Please pass this bill so Oregonians can do something about reducing plastics pollution. Thank you.
