

Submitter: Grace Cantrell
On Behalf Of:
Committee: Joint Committee On Ways and Means
Measure, Appointment or Topic: HB5006

My name is Grace Cantrell. I'm 9 years old. I'm here today to support Medicaid because it helps so many people in my life. It saved my dad's life 6 years ago when he had cancer. Medicaid made it possible for him to get the treatment he needed and be alive and healthy today. It makes it so my mom can care for the residents at the Adult Foster Care where she works. These people deserve to live with the help they need. Without this support thousands of people across Oregon would not be able to live with the care and dignity they deserve. This is why we need to keep funding Medicaid for our communities. So I say "Hands off Medicaid"!!!!!!
