

Submitter: Annette Brainard

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or SB221  
Topic:

I support SB221. Salmon is important to people's benefit to health. Having a place to rear, study, and count helps for future supplies for better results. Studying effects of water disturbances, food supplies for salmon, and environment above water are all important raising success rates.

Thank you for your time in considering a 'yes'.
