Thank you for the opportunity to respond with testimony pertinent to this measure.

That said, Are you daft?

Most of this is redundant.

Ageism is specific to anyone over 35 it seems. But going after experience, graduation or ages under the current law as in, not requiring any level of graduation or age is like sending an Oregon F in reading/science/writing/critical thinking to be accepted as a NASA worker without checking if they can tell the difference between a millimeter and an inch.
